Wolfgang Karl Härdle

Dear Professor Quan,

Wolfgang Härdle Ho Chi Minh City, June 2017

It was a pleasure meeting you on the Vietnam International Applied Maths Conference in June 2017.

Please find information about our current Master's degree course in Statistics and our Center for Applied Statistics and Economics (CASE) at:

- Master's programme <https://www.stat.de/>
- CASE <https://www.case.hu-berlin.de/>

Additionally, the following websites provide information about three new exciting areas of investigation we are presently working on:

quantlet.de	Our register of statistical programming codes.
hu.berlin/crix	Our cryptocurrency index.
hu.berlin/frm	Our financial risk meter.

I hope you or your colleagues will find these of interest and that we may have a chance to meet again in the near future.

Yours sincerely,

Professor Dr. Wolfgang Härdle
